LARGE POWER TRANSMISSION SERVICE

(General Service Classification)

LP-T Industrial Power > 10 MW

(Rate Title or Number)

Company Rate Code:	L6	
Availability: Available to the locations(s) authorized by Seller in accordance with the terms and conditions of the Agreement for Electric Service between the Association and the Consumer. This rate is available only in those months when the Consumer's Billing Demand is 10 MW or greater.		
Type of Service: Three phase, 60 Hertz, at the Association's 138 KV voltages.		
Service Provisions: Delivery Point: the delivery point shall be the 138Kv termination point and other locations as solely determined by the Association.		
Rate:		
Access Charge: Per month	$3,500.00	
Energy Charge: All kWh, per kWh	$0.03807	**(R)**
Demand Charge: All kW, per kW of Billing Demand	$29.25	**(I)**
Determination of Billing Demand The billing demand shall be the highest thirty-(30) minute integrated demand measured during the monthly billing period.		
Demand Charge Integration: The Association may combine corresponding time interval register demands of Consumer's multiple services to determine one monthly maximum integrated demand. This option shall be subject to capacity limitations of the Association's facilities which provide service to the Consumer.		
Power Factor Adjustment: The Consumer agrees to maintain average power factor between 95% lagging and 95% leading. Adjustments will be made to correct for average power factors outside the specified limits, if and when the Association deems necessary. Such adjustments will be made by increasing the measured energy by 1% for each 1% by which the average power factor is out of the specified range.	DO NOT WRITE IN THIS SPACE	
Adjustment of Demand and Energy Charge: This rate may be increased and/or decreased at any time due to changes in wholesale power rates and/or changes in Seller's internal rates. Consumer agrees to be subject to such modifications in the Tariff.
